NDSU-Dickinson Res Ext Ctr (456)	2-xxxx
NDSU/Sanford Nursing in Bismarck (323)	4-xxxx
NDUS and State Govt in Bismarck (328)	8-xxxx
NDSCS (671)	3-xxxx
UND and NDUS in Grand Forks (777)	7-xxxx
Valley City State Univ (845)	3-xxxx

Emergency Procedures

For complete details, please reference the link on the MSU website:

<http://www.minotstateu.edu/safety/emergency-guidelines.shtml>

Communication in an Emergency

Safety instructions for students, faculty and staff will be made available to the campus community through e-mail, text messaging, phone, the Minot State website, and local media. The NDUS Alert System will be used by MSU to contact faculty, staff and students in the event of an emergency. The Office of Public Information is the only office authorized to give official information about emergencies to the campus and community. If you receive phone calls regarding an emergency situation, direct the media to the Office of Public Information.

Emergency Phone List

You can reach the Minot Police, at 911, directly from a university phone without having to dial 9 for an outside line first. Be prepared to give your location, name and problem.

Police..... 911 or 852-0111
Campus Security Hotline..... 500-2423

Other Administrative Phone List

(only available from 8 A.M. to 4:30 p.m.)

Public Information Office 858-3298
Facilities Management 858-3210
Campus Switchboard 858-3000

General Evacuation Tips

To be prepared for an emergency, you should:

1. Know at least two ways out of the building.
2. Know the predetermined meeting location for your unit.

When you hear the alarm or are verbally instructed to begin evacuating the building:

1. Try to make sure all members of your department evacuate the area by quickly checking nearby restrooms, storage rooms, etc. as you exit.
2. Use the nearest stairway, not the elevator.
3. Accompany and assist those with disabilities.
4. Shut all doors behind you as you go.
5. Evacuate as quickly as possible but in an orderly manner. Do not push or shove.

6. Once outside, move at least 100 feet from the building or follow the instructions of emergency personnel on the scene. Stay away from building entrances.

Suspicious Object

A suspicious object is any package, parcel, container or other object that is suspected of being an explosive device because it is out of place or unusual for that location and cannot be accounted for, or because a threat has been received.

If you find a suspicious object:

1. Do not touch the object.
2. Move people away from the object.
3. Do not use a portable radio or cell phone.
4. Immediately notify the Campus Security at 500-2423.
5. Do not attempt to evacuate the building without the authorization or assistance of emergency personnel. Emergency guidelines caution against automatic evacuation. In most cases, people are likely to be more secure in their offices or classrooms than in hallways that have not been searched or outdoors where an actual threat may be even more likely to exist.

Medical Emergency

1. Notify the police (911). Provide details on the location of the ill or injured person.
2. Unless trained, render any first aid to the best of your abilities until assistance arrives.
3. Do not attempt to move a fallen individual.
4. Attempt to obtain the following information from the ill or injured person: their name, a description of symptoms, allergies or medications they may have and any major medical history.
5. Remain at the scene after emergency personnel have arrived to provide information.

If someone has been poisoned:

1. If the person has collapsed, is not breathing, or is seizing, notify the police (911).
2. Dial 1-800-222-1222 to reach the Poison Control Center.
