# Download a Single YuJa Recording

YuJa allows you to download recordings from your *Media Collection* and places the file into the Downloads folder of your computer.

## Download a Recording

You can download media from *Manage Media.*

1. Navigate to **Manage Media** at the top of the screen.
2. Choose the desired media you wish to delete from your *User Collection*.
3. Hover over the video and choose **More…**
4. Select **Downloads** from the left menu.
5. Under the heading Download Content, choose **Audio and Video Content**.
6. Under Pre-Generate Video Downloads, choose **Enable**.
7. Click the **Download Media** button under Download Content.
8. On the Request Download Media window, choose **Single File**. Then click the **Request Media** button. (Depending on the recording, the recording will either download immediately, or an email will be sent to your Minot State email account with a link allowing you to download.)
