A NEWSLETTER FOR EMPLOYEES AND FRIENDS OF MINOT STATE UNIVERSITY

MSU launches \$1.1 million TRiO-SSS

Last week, the staff of TRiO-Student Support Services moved into their new office in Minot State University's Student Center (second floor) as part of a \$1.1 million Title IV grant. The five-year grant, from the U.S. Department of Education, provides opportunities for academic development, assists students with basic college requirements and serves to motivate students toward completing their postsecondary education. The program strives to increase the retention and graduation of its participants and help students move from one level of higher education to the next.

"The TRiO Student Support Services program offers support to students who possess rising potential but need the motivation and confidence to succeed with their university education," said Holly Major, TRiO Student Support Services program director. "We are funded to serve 200 students per year."

To be eligible to participate in the TRiO-SSS program, an individual must be currently enrolled or have been accepted for full-time enrollment at Minot State University, be a U.S. citizen or permanent resident and meet at least one of three qualifications. The qualifications are being a first-generation college student (neither parent nor guardian has received a four-year degree), being income eligible (family income is at or below federally determined guidelines) or having a documented disability.

Services TRiO-SSS provides to students include:

- Academic tutoring, directly or through other services provided by the institution, which may include instruction in reading, writing, study skills, mathematics, science and other subjects, to enable students to complete postsecondary courses.
- Advice and assistance in postsecondary course selection.
- Financial aid assistance by providing information on programs, benefits and resources for locating public and private scholarships and helping in completing financial aid applications.
- Education or counseling services to improve the financial literacy and economic literacy of students, including financial planning for postsecondary education.
- Activities designed to assist students in achieving career and academic success.

TRiO staff members are Major, Tiffany Fylling, Jancy Brisson and Lynn Redden.

Major, an alumna, previously was the family support specialist for Minot's Pathfinder Parent Center. She earned her master's degree in administration from Central Michigan University and a bachelor's degree in business administration and marketing from Minot State.

PIO update

I know I'm not the first one to welcome the TRiO-Student Support Services program to campus, and I hope I'm not the last one either!

Minot State University is very fortunate to have been selected for this federal grant. It will directly impact some of our highest-need students.

The team of Holly Major, Tiffany Fylling, Jancy Brisson and Lynn Redden has the potential to be a real changing force in the lives of MSU students.

The TRiO-SSS is in place to assist first-generation students, low-income students or those with documented disabilities. These are students that deserve our attention. These are students that have the most to gain from a quality education provided at Minot State.

If you know of any student who can benefit from the services provided by the new MSU TRiO-SSS, please contact Major at 858-4402 or holly.major@minotstateu.edu.
