“Reinforced our company’s substance abuse awareness program. Employees who attended the presentation still remember it.”
In my opinion, the presentation/booth increased awareness of the intended audience:

The presenter’s knowledge on the topic proved to be a valuable resource beyond the presentation event. RMEP remains a valuable partner in our community.

Would you consider RMEP presentations/booths for future events?

Would you recommend RMEP services to others?
Overall Value of the Program

Awareness and education programs like RMEP are effective strategies for addressing issues related to substance use/abuse…

“Programs like RMEP are effective strategies for addressing issues related to substance abuse because they help dispel myths surrounding the issues.”

RMEP has enhanced your professional capacity (to address issues related to methamphetamine)…

“I believe that making people aware and informed is a great way to hopefully get people talking about the use and abuse, and therefore be aware of what’s going on around them.”

RMEP is a contributing factor to decrease of use, abuse, and overall presence of methamphetamine in North Dakota…

“I am a volunteer working with many rural safety topics. This is one of the areas that I can call on professionals to do the educating and know that they will do a great job!”
Are you aware of any other methamphetamine-specific programs and/or resources in your area?

If yes, have you utilized those programs?

“I was pleased with the programs and support them because of the high quality of the information, and the willingness of the staff to travel to rural areas. I had presentations done in several rural locations and the presenters never hesitated to come. Service-oriented folks. Great program!”
