Absence Management

Absence Management is a module in HRMS self-service used by all employees who earn leave to **view leave balances** and **request time off**. This applies to all types of leave: Annual, Sick, Dependent Sick, Comp Time, Jury Duty, Military and Funeral. (For leave programs and details, please refer to your staff handbook.)

An absence can be requested for an event that occurred in the past (e.g. a sick day) or for an event to occur in the future, such as annual leave. All absences should be entered by the employee, and approved by the supervisor, no later than the end of the pay period in which the absence occurs.
