

MEMORANDUM OF AGREEMENT
between
Minot State University
and
North Dakota State University

Purpose:

Minot State University (MiSU) will offer its Bachelor of Social Work Degree (B.S.W.) on the campus of, and in cooperation with, North Dakota State University (NDSU).

Motivating Principles and Values:

MiSU and NDSU agree to the following principles:

- Students are well served by the high-quality partnership between the programs of Social Work and Human Development and Family Science at MiSU and NDSU respectively.
- The partnership serves the educational needs of the region by providing high quality graduates of Social Work and Human Development Family Science.
- Both campuses seek a mutually beneficial financial arrangement to position the Social Work program to operate effectively and responsibly.
- Both campuses seek to maintain compliance with state and national accreditation guidelines to ensure quality.
- The partnership requires that both campuses participate in and use the Collaborative Student Registration process as required by the North Dakota University System.
- The partnership provides the ability to deliver a high-quality dual degree/dual major program of study to students in a convenient, timely and cost-effective manner.

The MiSU Social Work Program is accredited by the Council on Social Work Education (CSWE) and approved by the State of North Dakota Board of Social Work Examiners (NDBSWE). Both NDSU and MiSU are accredited by the North Central Association of Colleges and Schools: The Higher Learning Commission (HLC).

Dual Degree Program:

The MiSU Social Work Program located on the NDSU campus will coordinate with NDSU Human Development and Family Science (HDFS) in using the Collaborative Student Registration process. Utilizing the collaborative process will help in continuing to provide a high level of student service. New and current students who intend to study Social Work on the NDSU campus will be placed into the dual degree/dual major program of study. All

students are advised to work closely with their primary major advisors for both the Human Development and Family Science program and the Social Work program in the course selection process each semester.

New NDSU students, transfer students, and students who change majors and declare a major in Social Work will be placed into Human Development and Family Science as their primary major (program) at NDSU, and Pre-Social Work, second major (program) at MiSU. NDSU will be considered the students' "home" campus for administrative purposes (registration, billing, financial aid, student services, etc.) and student affairs (Title IX, student services, etc.); MiSU will be considered the "provider" campus for NDSU students.

Prior to enrolling in their first MiSU Social Work course, students will be expected to make application to and be admitted to MiSU as a Social Work (non-degree) student. MiSU will designate enrolled students as *non-degree with second majors* in Social Work until the time that all program requirements have been completed. Upon student completion of Social Work degree requirements, graduation application approval, and once MiSU has received a final, official transcript with the HDFS posted degree, the student status will be changed to: "degree-seeking, Social Work major" that will allow the degree to be posted to the MiSU academic record.

NDSU graduates with a degree in HDFS who wish to pursue a Social Work degree program will need to enroll directly with MiSU.

Agreement:
