

*Become a leader in your organization by adding to or updating your knowledge and skills in cybersecurity and information assurance.*

Offered on campus and online

In-state tuition for all students

Faster than average job growth

**To advance your career, consider where the cybersecurity management (CM) certificate will elevate your capabilities:**

- Managers assigned to or expecting to be assigned cybersecurity duties
- Information technology professionals seeking a cybersecurity management role
- Cybersecurity professionals seeking additional credentials and professional development
- Other professionals looking to enter both entry-level and mid-level positions in cybersecurity
- Professionals looking to add graduate credentials to their resumé

## Learn with Minot State

Through active learning, case studies, and projects, you will gain knowledge of principles and practices in developing and implementing an information assurance and cybersecurity plan for your organization. Once you complete this certificate, you will be prepared to continue your education to fulfill the requirement of a full master's degree.

## Employment outlook

Information assurance and cybersecurity management positions are experiencing faster than average occupational growth in the United States. According to the Bureau of Labor Statistics, job growth is expected to rise 31% to 171,900 positions with a median annual income of \$103,590.

## Flexibility

Our CM certificate can be earned on campus or online, making it possible for you to attend class regardless of where you live, work, or travel.

## Affordability

When you enroll in the certificate program, you pay our affordable in-state tuition regardless of residency.

## Quality

Minot State faculty members are highly qualified in their respective fields.

## Required courses

The Cybersecurity Management certificate requires completion of nine semester hours.

- BIT 560 Management and Integration of IS Function (3 SH)
- BIT 557 Foundations of Information Assurance and Security (3 SH)
- BIT 575 Business Network Systems Management (3 SH)

Courses are eight weeks in length. All three courses can be applied to the Master of Science in Information Systems degree.

*The course schedule is subject to change. Please contact the program director for the current schedule.*

## How to apply

We've streamlined our application process. To enroll in this program, go to [MinotStateU.edu/graduate](https://www.minotstateu.edu/graduate).
