

INTEGRITY VIKING FUNDS SCHOLARSHIP

Integrity Viking has been serving its shareholder's investment needs since 1987. Today, their fund family offers a broad range of equity, fixed income, and municipal bond strategies. They are committed to providing consistent, high-quality investment products and services to their funds' shareholders and the financial representatives that service them.

Integrity Viking understands that the foundation of their business depends on a high level of trust, reliability, and confidence in them as managers, as well as providing value in meeting shareholders' financial goals. Integrity Viking understands that choosing the right mutual fund can be difficult. Investing in a single mutual fund may not always be the best choice, because a fund that meets an investor's objectives today may not meet them tomorrow. That is why they are building a family of funds to help investors meet their financial goals.
