## Proposal Submission Requirements

*The Principal Investigator (PI) is encouraged to notify the VPAA as soon as possible when a grant/contract opportunity of interest is identified. The VPAA or business office will provide assistance on RFP review, budget preparation, agency contact, editing (as time allows), compliance, and final proposal submission. Due to limited staffing, actual writing of the proposal on behalf of the PI is not available.*

### No less than one week prior to the submission deadline, deliver the following items to Grants in the Business Office:

1. Completed approval form including signatures through the dean/director; if interdisciplinary, chairs/deans from all areas must provide approval.
2. Abstract of proposal project (or a full copy of the proposal)
3. Budget and budget narrative (or corresponding spreadsheet; see suggested budget template on Business Office website)
4. Documentation from the RFP describing allowable indirect rates and match requirements (or a full copy of the RFP)
5. Signature page, including assurance and certifications, of the paper or electronic submission – usually funding agency forms
6. For proposals requiring equipment sustainability or institutional space, a detailed explanation, including cost not covered by the grant/contract.

### Routing and submission:

*The VPAA office is responsible for routing the proposal for administrative approvals. During this process, the PI may be consulted for clarifications, questions, or changes. Once all approvals are given, VPAA will contact the PI and make arrangements for submission of the proposal.*
