

What you can do with a management degree

As a manager, you will plan, direct, and oversee operations and employees. You may supervise an entire company, government office, specific department, or territory. Managers often specialize in a particular field, such as sales, finance, health services, human resources, social and community services, government, and education.

Make a plan to be a successful manager

Skilled managers are:

- **Leaders** – emotionally stable, enthusiastic and self-assured
- **Communicators** – relate well both to staff and superiors
- **Organizers** – make and execute plans to meet employers' goals
- **Problem solvers** – identify and resolve problems
- **Flexible** – able to see things from different perspectives
