

PSYCHOLOGY

MSU at BSC

DEGREE OPTIONS

- Bachelor of Arts with a Major in Psychology
- Psychology Minor
- Psychology Concentration

Program objectives

- Understand clinical/personality basis of human behavior
- Understand the biological basis of human behavior
- Understand the developmental and social processes in human behavior
- Understand the learning components in human behavior
- Understand the applications of psychology to human behavior

Career options

The psychology major will help students meet the ever changing challenges of the world of work as well as give them a solid platform to launch their graduate career.

Options for careers are:

- Administrative support
- Education
- Sales
- Health
- Probation officers
- Public affairs
- Business
- Service industries
- Personnel analysts

A bachelor's in psychology is also excellent preparation for continued graduate work in psychology or for other fields such as business, medicine, or computer science.

Those who earn master's degrees in psychology may qualify for positions in school and industrial-organizational psychology. According to the American Psychological Association, the highest paid and greatest range of jobs are available to psychology doctorates. Minot State University offers a graduate Education Specialist in School Psychology program that has a 100 percent placement rate.

Where to complete your degree

All courses required for the psychology program are offered on the Minot State University campus. Students can blend various course delivery options by enrolling in courses offered on campus, online, at MAFB, or in Bismarck. To graduate, students must complete their general education course work, 40 hours of psychology course work as listed in the catalog, and the bachelor of arts degree requirements.

One of psychology's most important characteristics is its coupling of science and practice. This is reflected in the mix of academic courses and laboratory experiences offered at MSU. Emphasis is placed on students developing skills in critical thinking, writing, and synthesizing research material.

Application and coursework

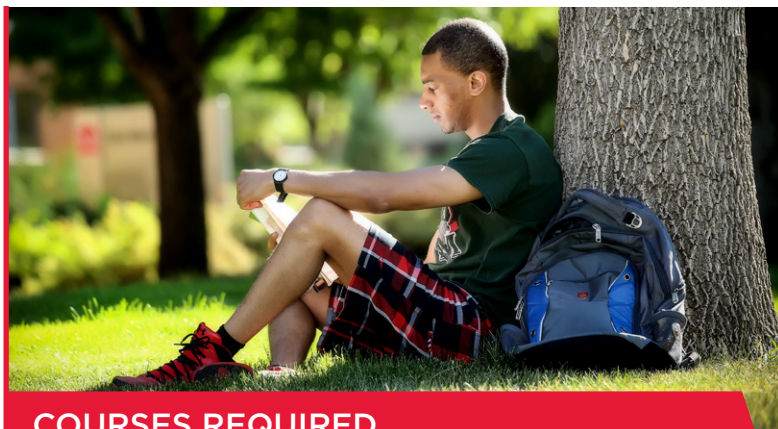

New freshmen and transfer students are invited to apply. The psychology programs require a minimum of 120 credits to meet the graduation requirements. Additional information concerning the psychology programs can be found at MinotStateU.edu/psychology.

Department of Addiction Studies, Psychology, and Social Work

Our faculty members are sought after for their scholarly expertise and their contributions to the community. They have both the academic training and the real world experience to prepare students for graduate work in psychology.
