

Minot State Students, Faculty, and Staff:

This Smart Restart Fall 2020 document includes guidelines, protocols, and monitoring systems for safely returning to campus. Minot State is following CDC guidelines as referenced in the ND Smart Restart Guidance for Employers, while utilizing a system parallel to the North Dakota Department of Health's determination of the state's risk level. These include five levels: Level 1 – New Normal (blue), Level 2 – Low Risk (green), Level 3 – Moderate Risk (yellow), Level 4 – High Risk (orange), and Level 5 – Critical (red). Currently, North Dakota is in green, Level 2 – Low Risk.
