

MSU Community,

A reminder that our final start-of-year COVID Testing event is occurring **this morning from 9-Noon at the MSU Dome**. We received information last night that MSU is near the very top of the testing participation rate among all 11 public colleges and universities in ND. This testing is a vital part of our overall strategy to get the school year off to a successful start. Help Minot State maintain our leadership in statewide participation! If you haven't yet done so, please get tested this morning – it only takes a few minutes.

Please see further details in yesterday's email below.

Thanks,
Steve

Subject: COVID Testing this morning - MSU Dome

Minot State Community,

Good morning and welcome to the first week of classes!

This is an exciting week at MSU, and we are pleased to welcome students back to campus for the first time since March. In our ongoing efforts to ensure a good start to the new year, it is critical we have as many students, faculty, and staff as possible get a COVID test. You are all strongly encouraged to do so. The tests are being offered from **9-Noon this morning on the 3rd floor of the MSU Dome**.

The test is free and only takes a couple minutes. It is the throat swab again today (as opposed to the nasal swab), so it is really a simple process.

Please **pre-register** before you head over to the Dome to speed up the process:
