

MSU Students,

Good evening. I hope your Spring Break is relaxing and going as smoothly as possible given the unique circumstances we all face with the COVID-19 virus.

Preparations continue at Minot State as we get set to resume the semester next week in an online/distance delivery format. As of now, the plan is still basically the same – to resume classes for the two weeks following Spring Break utilizing technology with no face-to-face classes. However, we have pushed the start date back by one day, so **classes will resume on Tuesday, March 24**. This provides you with one extra day of Spring Break and gives our professors an extra day if needed to prepare for the shift to an online teaching format.

Please continue monitoring your MSU email account to keep up with further updates as this situation evolves and rapidly changes on a daily basis. The MSU COVID-19 webpage is also a great resource:  
<https://www.minotstateu.edu/health/covid-19/>

Take care and have a pleasant remainder of your Spring Break,  
Steve
