

Communication Disorders Clinic closed March 16th through April 3rd

Attention to all MiSU Clinic Clients for Spring 2020 session:

In light of recent public health concerns, we wanted to provide updates regarding the Communication Disorders Clinic at Minot State University.

At this time, clinic remains open through Fri. March 13, 2020. We understand if you want to cancel your appointment and reschedule for a time when health concerns settle.

We do ask that if you are sick in any way, you do not come into the clinic.

Minot State President, Steve Shirley, has announced that to help mitigate the current health situation in Ward County, university students will not be present but rather taking classes online through at least April 3rd. During this time the on-campus clinic will be closed.

We will continue to update you as things change. In the meantime, if you have any questions or need to re-schedule an appointment please call 701-858-3030.

Sincerely,

Ann Beste-Guldborg
Department Chairperson
Minot State University
