Purpose
The University recognizes that the use of illegal drugs and abuse of alcohol and prescription drugs is a serious problem within our society. Drug and alcohol abuse affects the health, safety, and well-being of all employees and students at MSU. In efforts to combat the negative consequences associated with drug and alcohol abuse, MSU complies with all state and federal laws regarding drug and alcohol policies (North Dakota State Board of Education policy governing alcohol use on campus, the Drug-Free Workplace Act of 1988, Public Law 100-690 and the Drug-Free Schools and Communities Act Amendments of 1989, Public Law 101-226).

Minot State University recognizes the serious problems created by the use and abuse of alcohol and other drugs. In response to this awareness, Minot State University is committed to:

1. establish and enforce clear campus policies regarding the use of alcohol and other drugs
2. educate members of the campus community for the purpose of preventing alcohol and other drug abuse
3. create a campus environment that promotes the individual’s responsibility to himself/herself and to the campus community
4. provide resources through counseling and referral services for students who experience alcohol and/or drug problems.

Students concerned about their own alcohol and drug use or about that of others are encouraged to contact the MSU Student Affairs Office or the University Student Health Center.

Policy
The University prohibits the use of alcohol or illegal drugs, as well as reporting for work or engaging in work or other University-related activities under the influence of alcohol or illegal drugs.

Standards of Conduct

The university prohibits the use, possession and/or sale of alcoholic beverages in classrooms, laboratories, bathrooms, offices, residence halls, university housing units, athletic facilities, university vehicles, other campus building areas, public campus areas or in outdoor campus areas.

1. An alcoholic beverage is any fluid or solid capable of being converted into a fluid, suitable for human consumption, and having an alcoholic content of more than 1/2 of 1% by volume, including alcohol, beer, lager beer, ale, porter, naturally fermented wine, treated wine, blended wine, fortified wine, sparkling wine, distilled liquors, blended distilled liquors, and any brewed fermented, or distilled liquor fit for use for beverage purposes or any mixture of the same, and fruit juices.
2. University groups and recognized organizations may not use their funds for the purchase of alcoholic beverages.

3. On-campus parties at which alcoholic beverages are consumed are prohibited.

4. Sale of alcoholic beverages by university groups or recognized student organizations is strictly forbidden. (This is to include any action that can be remotely construed as alcohol sale such as charging admission to parties, passing the hat, selling empty cups, selling tickets, etc.)

5. Alcoholic beverages (such as kegs or cases of beer) may not be used as awards or prizes in connection with events or activities sponsored by university groups or organizations.

6. Alcohol/drugs are not to be represented in any academic or instructional setting or in any campus publication in a manner that would:
   
a. encourage any form of alcohol abuse or place emphasis on quantity and frequency of use.
   
b. portray drinking as a solution to personal or academic problems of students or as necessary to social, sexual, or academic success.
   
c. associate consumption of alcoholic beverages with the performance of tasks that require skilled reactions such as the operation of specialized equipment, motor vehicles, or athletic performance.

7. The use of alcoholic beverages during all public events held on the MSU campus is strictly forbidden except as provided by this subsection.
   
a. This policy does not apply to homes furnished to institution officials, family housing, married student housing, faculty housing or off-campus guest housing.
   
b. Alcoholic beverages may be permitted, subject to applicable state and local laws and ordinances, at events in facilities or upon land owned the institution pursuant to a permit signed by the institution’s chief executive or designee. The permit must describe the nature of the event and the date(s), time(s) and place where consumption of alcoholic beverages is permitted. The permit may be for a single event or for events occurring periodically at the designated place during a period of not more than one year.

The use, consumption, and possessing of any narcotic, dangerous drug, and/or controlled substance by any student or employee of the university for which said student or employee does not have a legal license or valid prescription is strictly prohibited. The unlicensed distribution or sale of any narcotic, dangerous drug, or controlled substance by any student or employee of the university is strictly prohibited. When such activity occurs on campus, the university shall initiate appropriate measures, which may include disciplinary action. When such activity occurs off the premises of the campus, the university nevertheless may consider initiating disciplinary action if the university determines that the activity has a substantial adverse effect upon the university or upon individuals of the university community. Violators will be subject to penalties, which may include separation from the university.
Behaviors that suggest alcohol/drug abuse include (but are not limited to) the following:

1. Repeated accidents (on or off campus)
2. Repeated illness absences
3. Chronic lateness or early departures
4. Significantly diminished task performance (with no other explanation)
5. Odor of alcohol, slurred speech, unsteady gait, disorientation, paranoia, hallucinations, and other physical signs of impaired function, not caused by a known medical condition.

A faculty or staff member who suspects that a colleague or co-worker is under the influence of alcohol or illegal drugs should contact his/her department chair or the human resources director immediately.

A faculty or staff member who suspects that a supervisor or department head is under the influence of alcohol or other illegal drugs should contact the next level of supervision or administration.

If a department chair, supervisor, or administrator has been contacted, or suspects that an individual is under the influence of drugs or alcohol, he/she should contact the Director of human resources, or the next level of administration for assistance.

The individual will be given an opportunity to discuss the situation. A person suspected or found to be under the influence of alcohol or other drugs and/or who may be incapable of performing his/her job will be sent home. The individual will be taken home or be sent home in a taxi. Anyone who insists on driving while suspected of being under the influence of alcohol or other drugs will be reported to authorities.

If a person admits to being under the influence of alcohol or illegal drugs, drug or alcohol testing of the individual may not be necessary. In these cases, a mandatory referral will be made for evaluation by a licensed addiction counselor on or off campus.

If it is determined that testing is necessary because of a critical incident in the workplace or because of safety concerns for the individual, colleagues, or co-workers, blood and/or urine testing procedures will be used. The University will pay the cost of all required drug or alcohol testing. Drug or alcohol testing may be conducted at the Student Health Service or other appropriate health agency with test samples sent to a certified laboratory for analysis. Random drug or alcohol testing is not explicit or implicit in this policy.

An individual suspected, or found to be under the influence of alcohol and/or illegal drugs, will be referred for evaluation to a licensed addiction counselor, and, if indicated, will be expected to participate in an appropriate treatment program for rehabilitation. If an individual refuses evaluation, refuses to participate in the appropriate treatment program, if it is indicated, or does not successfully complete the program, he/she will be subject to disciplinary actions up to and including dismissal.

If the individual is able to continue working while involved in the treatment program, his/her supervisor, department head, or department chair will determine if the individual is capable of performing regular job duties.
If it is decided that the person should not work at his/her regular job, a temporary alternate job may be offered if one is available for which the person is qualified, or he/she will be placed on leave of absence with or without pay based on the appropriate leave of absence policy.

**Conviction of Criminal Drug Statute Violation**

Any faculty or staff member convicted of violating a criminal drug statute in this workplace must inform his/her department chair or the supervisor of such conviction (including pleas of guilty or nolo contendere) within five working days of the conviction occurring. Failure to inform will subject the individual to disciplinary action, up to and including dismissal for the first offense. Under the Drug-Free Workplace Act of 1988, the University will notify the federal contracting officer within 10 days of receiving such notice from a faculty or staff member on a federal grant, contract, or otherwise receiving notice of such a conviction.

The University reserves the right to offer individuals convicted of violating a criminal drug statute in the workplace participation in an approved rehabilitation or drug assistance program as an alternative to discipline. If such a program is offered, and accepted by the faculty or staff member, then he/she must satisfactorily participate in the program as a condition of continued employment.

**Aftercare**

Upon completion of the initial alcohol/drug treatment program, the individual may be monitored for up to two years by the supervisor/department head as determined by the treatment program. As a part of the aftercare program, monthly reports from the licensed drug/alcohol treatment program will be submitted to the supervisor or department chair on the individual's program while he/she is in the program. Reports of relapses and/or missed aftercare meetings will also be reported to the supervisor or department chair by the licensed alcohol/drug treatment program. Non-compliance in the above-stated elements of the aftercare program will result in disciplinary actions up to and including dismissal.

**Prescription Drugs**

Although prescription drugs and over the counter drugs are legal, their use may be unsafe under certain circumstances. A person who is using a drug that impairs mental or physical functioning should inform his/her supervisor or department chair. The supervisor will be responsible for evaluating the individual's ability to work. If necessary, the faculty or staff member may be requested to obtain a statement from the prescribing physician, authorizing the individual to work. If it is determined that it would be unsafe for an individual to work in the regular work setting, an alternative, temporary job may be offered if one is available for which the person qualified. If no suitable job is available, the impaired person will be sent home.

**Sale, Transfer, Possession of Illegal Drugs**

Possession of illegal drugs (except possession of current prescription drugs) is prohibited and anyone in violation shall be subject to discipline. Any person who sells, manufactures, distributes any illegal drugs on University property will be reported to the authorities and will be subject to dismissal.

**Legal Sanctions**

Under the North Dakota Century Code, persons in the workplace suspected of violating either alcohol or drug statutes may be referred to civil authorities for prosecution.
Conviction of either state or federal alcohol or drug statutes will subject an individual (faculty or staff) to disciplinary action including, but not limited to, a required rehabilitation program, suspension, demotion, or dismissal.
