Conference objectives

Upon completion of this program, the participants will be able to:

1. Describe strategies to mitigate legal risks in nursing practice.
2. Identify the factors that contribute to the vulnerability of high-risk patients.
3. Discuss collaboration practices between nursing organizations, educational institutions, and healthcare providers to strengthen the nursing profession.
4. Explain how nurses can engage in politics and participate in shaping policies as citizens and nurse activists.
5. Recognize alternative options for self-reporting of addiction.
6. Explain the importance of adhering to the nursing scope of practice and delegation principles.
7. Describe elements crucial for practicing self-care within the nursing profession.
