# Authentication / Proctoring Problem

## Integrity

There is a need to be assured of who is really taking online exams. There must be a deterrent to cheating.

## Convenience

Exam proctoring must be available 24/7. Travel to remote test sites or scheduling live proctors must not be required.

## Cost

Live proctors are more expensive. Failure to comply with federal requirements and accrediting bodies could be costly.

# Biomids Authenticator and Proctor (BAP)

Available as an App Download or SAAS!

Fully Automated, Highly Scalable, Online Solution to Authentication / Proctoring:
