Campus Emergency Notification Information

NotiFind is the campus emergency notification system used to notify students, faculty, and staff of vitally important information in emergency situations. An "emergency" means a situation that poses an immediate threat to the health or safety of someone in the institution or system community, or that significantly disrupts institution or system programs and activities, such as a school closing.

You will be asked to provide a phone number and/or an email address. You can also select the institution(s) that will be authorized to notify you.

Every 90 days, you will be reminded to review and update your emergency notification information. For more information, select the Frequently Asked Questions link.

Note: Faculty and staff members are already enrolled in NotiFind through the payroll process. Your notification will come from the institution where you are employed. As a student, you will need to select the institution(s) of your choice.
