Timeframe Completed: End of the semester of student teaching

Assessor: ETS

Data Collection: TC scores in ETS portal

Data Display: Trend lines (4 years of data aggregated), by category, TLP aggregated pass rates; Table, by category, disaggregated by program (low enrolled programs are aggregated at the point an n=5 or greater occurs)

Standards Measured:

CAEP 1.2, 3.3, INTASC 4 & 5

Benchmark: State pass rates

Target: 80% pass rates

Data Analysis:

*TLP aggregate pass rate across all tests (trend line, four years of data)

*TLP disaggregated pass rate by program for current year (2023-2024)

*TLP pass rate by test benchmarked to state pass rates by test

Data Interpretation:

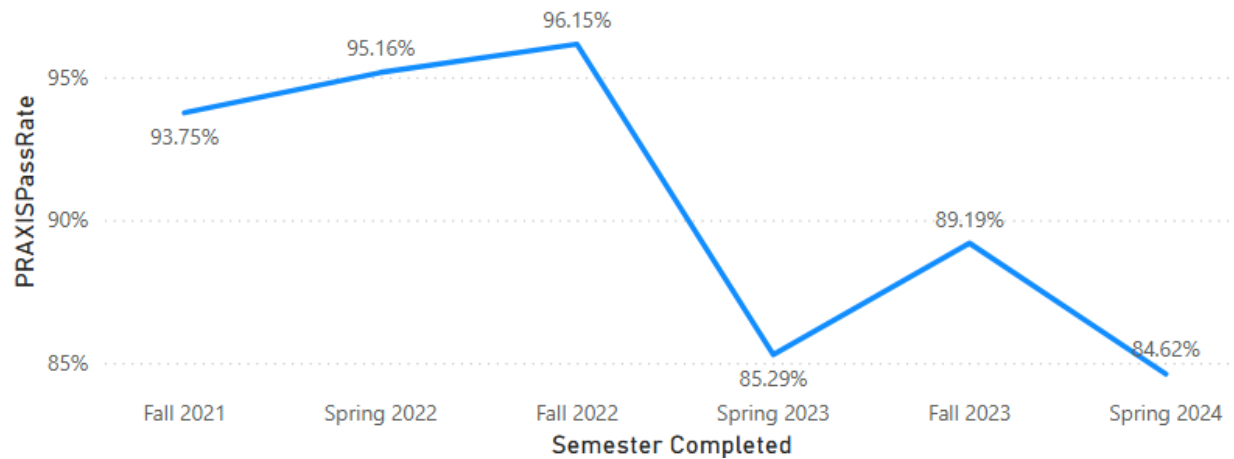

Overall pass rates on the PRAXIS II tests have fallen beginning in the Spring of 2023. Our governance committee and our Stakeholder committee have examined this data and initiated improvement actions including increased review sessions and faculty members taking the tests to assess match to curriculum. We will continue to monitor these results and the impact of our actions.

All programs meet the target of an 80% pass rate with the exception of Early Childhood Education (75%), History Education (75%), and Health and Physical Education (75%). These programs will be asked to review test content in relation to curriculum content.

In comparison to state pass rates, Business, Elementary Education, Math, and Social Science all have pass rates (using pooled data when needed) that exceed the state levels by 5 or more percentage points. One program's pass rate is more than 5 points below the state level (Early Childhood).
