

Ed 323L Mid Level Clinical V (30 hours)

This mid-level clinical experience provides teacher candidates with an extended experience in a school working on academic interventions with small groups of students and designing and/or interpreting appropriate assessments.

Teacher Candidate Expectations

Teacher candidates are expected to:

- establish and stick to a regular schedule (being prompt and reliable)
- come prepared to observe, learn and engage as appropriate
- be focused on student learning and professional growth

They should always be professional in all interactions. Teacher candidates complete a self-evaluation at the end of the experience and write a reflective paper focused on respect, communication & collaboration, complexity of content, student learning, reflection, and responsibility.

Assessment

The supervisor for this experience may be a cooperating teacher, an after school program coordinator, or a building principal. The supervisor will need to login to TK20 and complete

- an hours verification
- an assessment of the teacher candidate at the end of the experience.

I am always interested in knowing how our students/teacher candidates are doing in their placements so if you have concerns (no matter how mild you think those concerns are) please feel free to send me an email or call me in addition to completing the form at the end.

Access to TK20

After school program coordinators, cooperating teachers, and principals can access TK20 in two ways and can always complete a paper copy of any forms.

1. You will receive a link in the email that you provided to us; clicking that link will bring you straight into the TK20 system and to the electronic “binder” for the teacher candidate you are supervising. Occasionally these links fail to work – if so you can contact Deb Ringham (858-3838 or deborah.ringham@minotstateu.edu or via First Class in the Minot area) and she can resend it OR you can try option #2.
2. You can go to <https://minotstateu.tk20.com> and use the email you provided to us as the username AND the password. Once you are “in” the system will prompt you to change your password. If you later forget that new password Deb Ringham can reset it to your email for both again 😊 Then you will click on “field experience” and should see any electronic binders for students you are supervising.

If accessing TK20 turns into a problem, please contact Lisa Borden-King (lisa.bordenking@minotstateu.edu or via First Class) or Deb Ringham and we can send you paper copies of required forms.

We don’t want TK20 to ever deter you from mentoring our students!
