

Ability of Completers to be hired in education positions

2016-2022

M.S. SPED

In the past, due to the critical shortage nationwide of Special Education teachers, the majority of M.S. candidates were already working in the field upon admission to the program, typically with an alternative access license. Other times, candidates were licensed teachers seeking additional credentials.

Beginning in Fall of 2023, candidates without an existing license (non-alternative access license), will be enrolled in the MAT program. The MS candidates will be restricted to teachers seeking additional credentials or to further their professional knowledge.
