

Ability of Completers to Meet Licensing (Certification) and Any Additional State Requirements

North Dakota requires a Special Education Praxis II exam for initial licensure only. Since some M.S. candidates already held initial licensure, no data is available prior to 2016. All M.S. candidates are now required to take the Special Education Praxis II exam appropriate for their respective concentration area as an exit requirement. Passing the appropriate test is a requirement for licensure; if a candidate is unable to pass the exam, the candidate will not receive permanent licensure.
